TRAININGS / INTERNSHIPS

- **Web Development with AI | Internshala Trainings**
It is an 8-week online training in which I learnt about Full Stack web development from basic level. This training covers HTML, CSS, Bootstrap, DBMS, PHP, JS, React, Final Project, and AI in Web Development modules. In the final assessment, I scored 74% marks.

CERTIFICATES / COURSES

- **Web Development with AI | Internshala**
- **Full Stack Web Development with MERN STACK & GenAI 2025 | Udemy (ongoing)**
- **HTML | Codeliber**
- **JavaScript | Programming Hub**
- **The Fundamentals of Digital Marketing | Google Digital Garage**
- **Complete course in AutoCAD 2D & 3D | Udemy**

PROJECTS

- **KCLICKS**

<https://kclicks.netlify.app>

KCLICKS is my first ever project in fronted development. It is a site containing few of my best clicks categorized accordingly. It is a small combination to showcase my skills in web development and photography. It is completely built using HTML and CSS only.

- **Doctor Appointment System**

It is our group project in our 8th semester in B.Tech. As the name suggests, it is a project in which we made a site that helps patients to check slots and book appointments of doctors and for the doctors it made them accept appointments and connect with patients more comfortably through digital medium.
